

## POPE PIUS IX DEAD!

## CARDINALS SUMMONED TO ROME.

Cardinal Billio His Probable Successor.

## Brief History of His Life.

Pope Pius IX died yesterday afternoon at 3 o'clock. All Cardinals are summoned to Rome immediately. He was 85 years of age, and had been Pope 31 years. Cardinal Billio seems to be the most likely to succeed him.

Giovanni Maria Mastai-Feretti (Pius IX.) was born in Sinigaglia, Italy, May 18, 1792. His father was Count Giovani Mastai-Feretti, gonfaloniere of Sinigaglia, and his mother was Countess Catarina Saluzzi. His studies, during his earlier days were interrupted by severe and often recurring epileptic attacks, and the life of the young Italian was often despaired of. In 1819, however, he was ordained priest, and appointed Director of the Tata Giovanni, a school for poor boys. In 1823 he went to Chili as Secretary to Monsignore Muzi, the apostolic delegate. In 1827 he was appointed Domestic Prelate to Leo XII. Preferment followed him fast. In 1827 he was appointed Archbishop of Spoleto, in 1832 Archbishop of Imola, and in 1839 Cardinal. While holding these various offices in the Church, he was remarkable for his gentleness of disposition and his charity to all men. Indeed, he seemed to live with but one object, to do good to his fellowman. It was this trait in his character which drove him into exile and ultimately lost him his secular throne.

## NEWS OF THE MORNING.

A Russian army has entered Constantinople. There is great excitement in England over it.

Hon. Nester Maxon was killed in Texas in a duel Wednesday.

Thurman made an able speech in the Senate yesterday on the Silver bill.

The German Parliament opened yesterday.

A startling falling off in Government revenue and it is thought special legislation will be necessary to make it good.

The House Committee on Elections yesterday heard reading of majority report of the sub-committee in favor of Acklen, Democrat, against Darrall, Republican, the sitting member from Louisiana.

R. J. Miles, of the Grand Opera House, Cincinnati, by his counsel, Thomas A. Logan, Esq., yesterday received a verdict of \$10,000 damages against P. T. Barnum, W. C. Coup and others for a libel published two years ago.

Two hundred and fifty recruits for General Miles arrived at Bismarck yesterday and took up a line of march of 400 miles for Fort Buford and Tongue river.

The Presidents and freight agents of the principal railroads in the country are in Chicago attempting to adjust equitably all differences.

A prominent New Orleans man has arrived in Washington, who declares that the returning Board prosecutors were instigated by Tilden.

In England the women always purchase the groceries and provisions for the family; if a man should attempt such a thing some house-wife would pin a dish cloth to his coat-tail.—*Ex.*

We shall emigrate to England; see if we don't!

SOME one has discovered that more than a million of men are engaged in the United States in raising and manufacturing tobacco. More than ten million persons are engaged in chewing and burning it.

## WOOLEN MILL AT RENO.

Reading the following brings to our mind something that ought to be done here:

The mission Woolen Mills, through Donald McLennan, its manager, has been awarded a contract of a quarter million dollars for supplying blankets and clothing for the army for one month. For each succeeding month they will have the honor of entering into competition with Eastern manufacturers, and we have no doubt will come off victorious. The Pacific Coast is bound to be the leading woolen manufacturing section of the Union.—*Journal of Commerce.*

## THE CHINESE QUESTION.

The Six Chinese Companies of San Francisco are evidently determined not to allow their business of buying and selling coolies to be taken from them without a desperate struggle to maintain themselves. They are prepared to spend money, and they are spending money, to present their side of the case before Congress in such a manner as to prevent that body from legislating against their interest and in favor of the white citizens of this coast. They have engaged an attorney in Washington, one Joseph P. G. Kennedy, and this gentleman has succeeded in inducing the Committee on Education and Labor to postpone their report until he can prepare an argument to be read to them. He says the Companies are willing to have the Convention proposed by the California Legislature, but they are not willing to see the immigration of their people restricted by a simple act of Congress. Fair dealing demands that they shall be heard in their own defense, but it is not probable that they can adduce any facts which will alter the opinion of the Committee, which, it is said, has already been formed in favor of restrictive legislation.

## THAT REPORT.

Dr. BEVERIDGE, an English naval surgeon, says that foreign substances, such as pieces of meat, etc., can be removed from the throat by blowing in the ear.—*Ex.*

The above is a fair specimen of free medical advice furnished by the press. The external ear has no communication whatever with the throat, it being divided from the internal ear, which opens into the throat, by the tympanum or drum, a delicate membrane, which might be easily ruptured by blowing violently into the ear, thus producing irreparable mischief, without the shadow of a chance to displace the "meat, etc., in the obstructed passage. Sensible people will pay no attention to the little medical paragraphs and recipes with which some newspaper publishers fill their columns.

RACES AT STILLWATER.—There will be two days racing at Stillwater, Churchill county, on Friday and Saturday, the 15th and 16th of this month. The main race will be for \$500 a side, single dash of a half-mile, and a number of smaller races for purses are on the programme. In one of these six horses are already entered. There will also be foot-racing. The great event in this line will be the contest between A. P. Cate of the Big Bend and the Sheep herder of Walker River. A good deal of interest attaches to this race, as the men are considered fleet of foot.

\$30,000 FOR THE FASTEST HORSE.—The Louisiana Jockey Club, in order to try and secure the entries of Winter's Mollie McCarty, the famous champion thoroughbred of the Pacific slope, Ten Broeck, Largenteen, McWhirtle, Vera Cruz, and all the crack racers in the country, has offered a purse of \$30,000 for a four-mile heat race, and a purse of \$10,000 for a two-mile heat race.

## INSANE ASYLUM.

Do the people of this State ever think of the injustices we are doing ourselves by having our insane cared for by California. We are paying out \$40,000 per year to California citizens, for this purpose, when the money ought to be expended at home. Better for all of us if it cost \$50,000 at home than \$40,000 abroad. It is an outrage that the citizens of our own State do not receive the benefit of their own money. The sooner the State provides an Insane Asylum and spends its money at home the better it will be. Let the next Legislature not fail to perform this duty.

Gov. BISHOP, of Ohio, who is a Christian (?) and a Democrat, is playing havoc among the crippled Union soldiers who are holding office in that State. After having turned out some of the soldiers' orphans, he commenced on the maimed soldiers. Stetler, the one armed visitors' attendant, who has so long sat in the rotunda, and Slack, the one armed keeper of the flag room, were discharged a few days ago.

On Saturday last a Deputy United States Marshal visited Truckee and made a number of arrests of parties who are charged with cutting timber on the Government lands. Sixty-five citizens of that place have been summoned as witnesses, and left for San Francisco Tuesday night. A Government detective has been at Truckee some time working up the cases.

At a mile the American rifles used by the Turks will bury a bullet a foot and a half in hard clay. The public know them.

## THE SACRAMENTO RACING SEASON.

The racing season for Winter, says the *Record-Union*, has been arranged under the superintendence of Robert Allen, lessee of Agricultural Park. It makes up a very fine programme and will draw a large crowd of people. Mr. Allen says that even with a heavy rain the day before a race his track will be in order. The two great events are the trotting race, ten miles out, and the match between Mollie McCarty and Jake. All the horses are now at the park, and in fine training—not missing a morning of exercise, whatever the weather. The programme of the races is as follows:

February 19th, there will be a half mile and repeat running race, \$1,000 purse, in which there are now five entries: s g Ben Truman, by Langford, and aged; s s Humboldt, by Laplander, dam a Printer mare; b s California, by Monday, dam Mayflower; b m Madge Duke, by Bayonet, dam Tick, by Monte; b m Minnie Brighton, by Norfolk, dam Dutch Girl.

February 20th, there will be a trotting match race for \$2,000, 10 miles out: b g Jack Stewart, an Eastern horse, with the best time on record to 20 miles; b g Controller, which is a California horse, bred and raised at Lincoln, is of John Nelson, and has the best record of any horse in the State for 5 miles out.

On the third day February 21st, there will be a running race, mile and repeat, free for all, \$400: b m Madge Duke, b s Ward Beecher, by Woodland, dam Bonnie Bell, by Belmont; s m Mollie H., by Leinster, dam Sophie Dennison, by Jack Malone; s c Mark L., 3 years old, sired by Monday; dam Jennie C., by Norfolk; b c Snap, 3 years old, sired by Norfolk, dam Jennie Hull by Belmont.

On the fourth day, February 22d, the grand match stake and purse \$2,750, 2 miles and repeat, between Mollie McCarty and Jake. A dispatch in this morning's paper will be seen in which Mollie McCarty is bid for a two-mile heat race, \$10,000, and for a four-mile heat race, \$3,000.

On the same day, running race, mile and repeat, for 3 year old colts, purse \$250: s c Mark L., b c Snap, b f Playmate, sired by Alarm, dam Pet, and she by Vandal.

On the fifth day, February 23d, trot, mile heats, three in five; 2:25 class; \$500: b g Doty, by McCracken's Blackhawk; g m Sweetbrier, b m Lou Whipple, by Whipple's Hambletonian, dam full sister to Dan Hibbard; b g Cairo, sire and dam unknown; b g San Bruno, sire and dam unknown; b g Confidence, sire and dam unknown.

## A GREAT DEAL OF BLUSTER BUT NO FIGHT.

A London dispatch of the 6th says: It is true that English sentiment grows warlike since the war is over; Austria frets uneasily over the Eastern situation, watching timidly with one eye to see what Germany intends to do; Russia masses her troops in readiness for whatever effort to stay her progress England and Austria may venture; Turkey puruses a policy of masterly inactivity, except so far as she completes the details of the peace arrangement with her conqueror, evidently indifferent now whether or not it suits the power who failed to respond to her cries for help when it might have saved her; but don't you believe the situation is critical, and that war must be renewed on a broader scale. The proposed Vienna conference meets only to consider the terms already fully arranged between the conqueror and conquered, and supported by immense armies already in the field, where said arrangement must be sustained or overthrown by the aggressive, and unless Berlin gives the signal to the contrary, which is highly improbable, these accomplished facts will be respected, and the powers failed to sustain the Ottoman Empire will not fight to revive and reconstruct its now lifeless remains. Don't be deceived by diplomatic bluster, which thinking men here understand and despise.

CIRCUSES are expensive luxuries in Savannah, Georgia. They are forced to pay a State, county and city tax, amounting to \$700 per day. No wonder that circus proprietors give that city a wide berth.

THE STOCK LIST Committee of the Old Board of San Francisco have ordered that all companies listed hereafter shall sign an agreement not to levy assessments until ninety days after being listed.

THE CROWN PRINCE and Princess of Germany have only \$75,000 per annum to live upon. Papa, the Emperor, has about \$5,000,000 a year, but he does not believe in allowances.

CHARLES O'CONOR, the great Democratic lawyer and orator of New York, is seventy-four years old, and as active and hearty as he was thirty years ago.

THE HOUSE COMMITTEE on Education and Labor have agreed unanimously on a policy which will check the evils of Chinese immigration to the Pacific Coast.

BARNUM says that since he began business he has sold tickets amounting to \$83,000,000. No wonder that he can afford to invest liberally in the Colorado stone man.

A WASHOE Indian killed a Pinto Indian at Pine Nut Valley a few days ago. The Washoes and Pintos in that vicinity are now playing at hide and seek.

THE HOUSE NAVAL Committee are already on the track of a useless contract made by Robeson ten days before he was mustered out of office.

MR. LONGFELLOW is reported as saying that if he were to respond to all the requests sent him for his autograph and his portrait, he would spend a third of his income in photographs and postage stamps.

MR. WM. B. TAYLOR, of the *Telegraph*, places himself in nomination as the Workingmen's candidate for Governor.

ASSEMBLYMAN UPTON, of Santa Clara, Cal., died Tuesday night of consumption. The funeral was held Wednesday.

We clip the subjoined from the Lyon county *Times*:

A Virginia man has obtained a patent for an invention which he fondly hopes will prove a formidable rival to the Moffett bell-punch for use in the saloons. His plan, as set forth in the Virginia papers, is that the State Auditor shall have prepared a book of coupons, to be sold to all bar-rooms and liquor-dealers generally. When the dealer sells a drink the consumer receives a coupon, which entitles him to receive from the State, in payment of his taxes, one cent. If two drinks are to be paid for he receives a coupon printed on orange paper, good for two cents. If five drinks a blue paper, good for five cents. This seems to be an admirable arrangement for the promotion of drinking. It would undoubtedly be the patriot's duty to drink all he can, and, like a little Sunday school boy, get a blue ticket at least at every setting. Not only does the State enjoy an income from the tax on drinks, but a man who drinks has a reasonable chance of paying off his taxes with the orange and blue coupons. Of course the biggest taxpayers will have to do the most drinking to balance their accounts with the State, and the saloons will be perpetually crowded with men working out their taxes.

THE DARIEN CANAL ROUTE.—The steamer *Andes* brings dates from Panama to January 28, and a New York dispatch of the 6th says:

Lieutenant Wyse, chief of the Darien canal expedition, arrived from the headwaters of the Tuzro on the 18th. He will proceed to Acanti on the steamer *Atlantic*, and thence toward Tinti, at which place the balance of the party were left. Wyse reports the expedition in excellent health, and that satisfactory progress is being made. On the 21st he had a small party make a reconnaissance of the Rio Grande from a point five miles from Panama, to which the tide extends; to the mouth of the river. The examination was made in order to enable the chief to give instructions to the engineer, who is soon to make a thorough survey of the Panama route for a ship canal. Wyse expressed himself well pleased with the appearance of the route, although the rock is very hard.

Wife Beater.

On Wednesday Mrs. Sharkey, of Franktown, made a complaint against her husband for beating her. Justice Harcourt telegraphed for District Attorney Cain, who went up. When he got there the woman had made up her mind to have the complaint dismissed, but Cain would not consent. Mr. Sharkey plead guilty and was sentenced to the whipping post and to be placarded as the law requires. Execution of the sentence was suspended until Washoe county should provide the post, as the statute provides.

Knights Attention.

The C. C. of Amity Lodge, K. of P., would be pleased to meet as many of the members as can possibly attend, at the Hall of Truckee Lodge, this morning at or about 12 o'clock M. Especially wishes the following brothers to be present, J. T. Davie, J. F. Myers, W. A. Walker, R. Smith, Chas. Stoddard, G. P. Farrett, F. A. Teasland, C. C. Powning, E. F. Reed, W. W. Coffin, Isaac Chamberlain, W. D. Phillips.

Gazette Locals.

The pupils of the Gold Hill Central School are teaching themselves telegraphy.

The Gold Hill schools have a large attendance and are progressing finely.

The Mayor of Virginia City will make his next annual report 1,252 pages.

Don't put your personal opinion out as standard money when you can easily test it by proof. It is better to be sure than to be strongly of the opinion —Gazette.

Why didn't you talk that way to the Grand Jury?

## Grand Irrigating Scheme.

Some months ago several of our citizens clubbed together and located 20,000 acres of land in this county under the provisions of the so-called Desert Land Law, with the intention of expending about \$150,000 to comply with its provisions. This land is north of Reno and covers Spanish Springs and Warm Springs Valleys, two of the prettiest valleys on the Coast. In order to comply with the law to hold the land it will be necessary to bring in a ditch from the Truckee large enough to flow from ten to fifteen thousand inches of water. The ditch starts from Bronco, and it will cost nearly \$200,000 to perform the work of bringing it in. Within the last day or two the scheme has assumed new shape, and such a shape, that work will be commenced in a month or two and continued till the gigantic undertaking is pushed to a successful completion, which will be of immense benefit to Reno, Washoe county and the State of Nevada. Messrs. Bragg, Kinkead, Chamberlain, Fulton, Higgins, Hayden, and others of this town, in conjunction with the well known wealthy and energetic Coleman Brothers, of Grass Valley, together with Hon. J. H. Neff, of Colfax, and two or three other capitalists, compose the new company, which is to do the work herein referred to. Their project is a grand one, and is sure to be a source of profit, pecuniarily and otherwise, to all who are engaged in it.

## "48" Ball.

Full particulars, together with a list of committees, etc., of the ball to be given by "48" on Washington's Birthday, will be seen in our advertising columns. Tickets have been placed at the very low sum of \$2 each. In view of the affection entertained toward "48" let us help the boys to make the ball a good one.

After the V. &amp; T.

We have been informed that the bonanza crown are negotiating, and with every prospect of success, for the V. & T. R. R., the Lake Tahoe narrow gauge, and all the wood and timber owned by Mills, Yerington, San Francisco.

## Theater To-night.

If you wish to enjoy a rare theatrical treat go and listen to John Pierpont's troupe at the Academy of Music to-night. The sensational drama of "East Lynne" will be presented.

## The Usual \$2.

The California and Con. Virginia mines yesterday declared dividends of \$2 per share, payable on the 14th and 15th.

In regard to the Clerk the Grand Jury report reads:

We have not discovered any instance where the Clerk has failed to charge for each service rendered.

We guess the Clerk, or any other man, has not discovered any instance where any Grand Juror failed to charge the full amount allowed by law for each service rendered. We guess the editor of the *Gazette* found no trouble in drawing his little old \$50 for services rendered.

If the bonanza folks get the V. & T. and Mills and Yerington's wood tracts around Lake Tahoe, they will not be likely to do much more work in their wood camps near Reno. When Tahoe is exhausted, we have the consolation of knowing they will have to come here, and go up north with a railroad to get what they want. We can wait.

We have been informed that the JOURNAL editor volunteers such explanations in private as this: "The motives of that Grand Jury are sufficiently plain to me; seven of the number are defeated candidates, and the other ten want a record." —Gazette.

Your informant misinformed you. But that's about as near right as you get things generally.

The Grand Jury did so noble a work, why was it they overlooked the fact that the *highest bidder* received the contract for doing the county printing? Possibly Alexander, the Great, forgot to call their attention to a little matter he was directly interested in.

The *Gazette* speaks about "oil for the troubled waters." Yes; a good dose of croton would be of benefit to at least one member of that Grand Jury.

The Riverside party will be at Kimble's Hall this evening. Members of the Club are requested to govern themselves accordingly.

An assessment of \$3 per share was yesterday levied on Overman.

DISTRICT COURT will be in session again to-morrow.

HAVE you sent for any of those articles which were advertised in this paper? We mean those that were advertised by Uncle Harris, and have you ever thought what a saving it would be to you to buy your goods from him? For you must remember he does not put his goods in the paper just to advertise them, but to conform to the Statutes or Laws of this State, which compel him to notify the public of all goods which he has forfeited out of pawn and will sell. 702 and 704 Kearny street, San Francisco.

The *Gazette* is so hard up for ads. that it has taken two from Ash & Robbins, New York, about "Consumption Positively Cured" and "Fits, Epilepsy, or Falling Sickness." If any paper in the State ever received a cent for publishing those ads. we would like to know it.

HARRY NOTES is about the same as at last report.

THE whole number of any person's ancestors for fifty generations amounts to 2,362,749,014,214,046, and it seems as though some of us ought to inherit more wealth than we do.

The man who swore off is beginning to abstain with great feeling, "We've got but one life to live, anyway."

The total value of church property in New York, is over \$56,000,000, while the debt is less than \$8,000,000.

A CARD.—I take pleasure in advising all who take out policies of fire insurance, that the Home Mutual Fire Insurance Co., of California, is as prompt in adjusting and paying losses as it is reliable, and recommend all who wish prompt settlement without trouble or litigation, to patronize them. In my case, on the 8th instant I advised the company of my loss. On the 9th it was adjusted, and to-day it was paid.
